Note about Performance

Past performance is not a reliable indicator of the future performance of an investment. The performance of the mutual funds is calculated in accordance with the OeKB method. The performance figures are presented as a net-performance figure, i.e. fees such as the management fee and other costs charged to the funds are already included. The figures do not reflect potential initial sales charges or deferred sales charges or taxes such as capital gains tax or withholding tax. If included, these would lead to lower performance. Notice for investors whose domestic currencies differ from the fund currency: we want to inform you that the yield may rise or fall due to currency fluctuations. Please bear in mind that investments in funds bring opportunities as well as risks. The value of and the return on an investment can rise or fall.

Kathrein Privatbank Aktiengesellschaft does not act as tax advisor and hereby expressly excludes any liability for fiscal disadvantages. Tax treatment depends on the investor's personal situation and may be subject to future changes. Similarly, simulated past performance is not a reliable indicator of the future performance of an investment fund or portfolio. Since simulated performance is not based on an actual investment portfolio, these results are only based on historical information and data.
